ABOUT ME

As a self-learned and passionate web developer, I have dedicated myself to mastering the art of creating dynamic and responsive web applications using Next.js and React.js. My journey into the world of web development began with a burning curiosity and an unyielding determination to excel in this ever-evolving field.

PROJECTS

E-commerce Website Using Next.js and React.js

Developed a dynamic and responsive web application dedicated to the online purchase of VR headsets, Key features include user authentication , robust cart functionality, secure payment processing, and the ability to manage website content and products through a Content Management System (CMS).

Technologies Used :

- **Frontend:** React.js, Next.js, JavaScript/TypeScript, HTML5, CSS3
- **State Management:** Context API
- **Authentication:** Firebase Google Authentication
- **Database:** Firebase Firestore
- **CMS:** Sanity.io
- **Payment Processing:** Stripe Integration
